

Application for Voluntary Subscription Recycling Collection Services

The City of Edinburg would like to welcome you to the Voluntary Curbside Subscription Curbside Recycling Program.

Instructions:

- **READ ALL** information and eligibility criteria before you complete the Application for Voluntary Subscription Recycling Collection Services. If you have any questions, please call (956) 292-2133 Monday-Friday 8 a.m. to 5 p.m.
- Determine if your property meets all criteria for City-provided collection services. (listed below)
- Applications must be submitted by the owner/tenant of the property requesting Voluntary Subscription Recycling Collection Services.
- If you are unable to place the container on the curb due to a medical condition/or disability please provide the department with a Request for Medical/Physical Disability Verification Form from your physician.
- COMPLETE the entire application-please print or type.
- Submit application in person Monday-Friday 8 a.m. to 5 p.m. or by mail to:

Department of Solid Waste Management

Attn: Recycling Center

8601 N. Jasman Rd.

Edinburg, TX 78542

The criteria for qualification for City-provided Recycling Collection Services are as follows:

1. The residential property must be located within the City of Edinburg limits.
2. The residential property must allow safe access with adequate space for the proper placement for collection of containers without creating unsafe conditions for City-collection vehicles.
3. Containers must be placed at the collection point (curbside) between the hours of 7 a.m. to 7 p.m.
4. Containers must be removed from the street at the end of the day.
5. Only recyclables such as, clean cardboard, newspaper, mixed paper, tin cans, aluminum cans, & plastics #1 & 2 will be allowed in the container. *No Glass accepted.
6. **Very important**-Materials with food or beverage residue will contaminate an entire truck load of recyclables. It is important to rinse and clean materials before you place them in the recycling container.

Application for Voluntary Subscription Recycling Collection Services

City of Edinburg Voluntary Subscription Curbside Recycling Program

City of Edinburg Residents have now the opportunity to start recycling through the Voluntary Curbside Recycling Program. Recycling conserves natural resources, helps protect the environment and reduces the amount of trash going into landfills. Residents can sign up for this service through the Department of Solid Waste Management Recycling Center.

Materials eligible for recycling are: **Cardboard, Newspapers, Magazines, Mixed Paper, Tin Cans, Aluminum Cans, & Plastics #1 & #2. *No glass accepted.**

How to Recycle

Once you have signed up for this service you can expect delivery of your container and immediately start recycling. No sorting is necessary, except for your newspapers, magazines, and paper. These can be placed in a plastic bag and kept dry to make sure there is no contamination. Collect all the accepted materials at home and place in the container for recycling. Place your recycling container by the curb between 7am to 7pm on your scheduled day for service and retrieve after service.

Why Recycle

Recycling saves natural resources, saves landfill space, saves energy, and produces less pollution. It is good for our community and our future.

What to Recycle

Cardboard, newspapers, magazines, mixed paper, tin cans, aluminum cans and plastics #1 & #2.
*No Glass accepted.

Other ways to Recycle

The City of Edinburg has the drop off Recycling Center conveniently located on 3102 S. Business 281. Its hours of operation are Mon-Fri. 8a.m. to 6:30p.m. and Sat. & Sun. 8a.m. to 5p.m. Materials accepted are Cardboard, Newspapers, Magazines, Mixed Paper, Tin Cans, Aluminum Cans & Plastics #1 & 2 and Glass.

What happens if I'm not recycling properly?

Please refer to General Information on page 3.

Questions or Comments

We are always looking for ways to improve our services. If you should have any questions or comments, please call (956) 292-2133.

Application for Voluntary Recycling Collection Services

Recycling Facts

Paper and cardboard

To produce each Sunday's newspaper, 500,000 trees must be cut down.

Aluminum and Steel

Recycling one aluminum can saves enough energy to run a TV for 3 hours or the equivalent of a 1/2 gallon of gasoline.

Plastic

Americans use 2,500,000 plastic bottles every hour, most of them are thrown away!

On average, each one of us produces 4.4 pounds of solid waste each day. This adds up to almost a ton of trash per person, per year.

General Information: Ordinance 2011-3488

Recycling

§51.62 Contamination of Recycling Containers

- (A) All recycling containers are the property of the City. It is the resident or the business' responsibility to keep these containers clean and free of contamination.
- (B) Inspections will be conducted at random on all Recycling customers through the "Tag" program. City employees will randomly select a particular route to inspect. Inspectors will be looking inside the containers for contaminants that will spoil recyclables, such as food, diapers, household trash or any other item that is not acceptable inside the container. If contamination exists, the container will be tagged and will be emptied. After a customer has been "Tagged" three times, their container will be picked up and after 30 days the customer may request it back after signing an agreement with the recycling coordinator. Businesses that have a Roll-Off may also be "Tagged" for contamination. If the Roll-Off contains any item except recyclable material, the City has the authority to deny service to that container. The customer will be asked to either remove the contamination to allow the dumpster to be emptied; or pay a service charge, equal to the collection and disposal charge for that particular container, to have the container emptied by the City's garbage collection service.
- (C) It is understandable that residents or businesses that make an effort to recycle correctly, may sometimes make a mistake and place unacceptable items in with their recyclables, in this case, during the inspection process, the containers will be given a tag to remind the resident to be more careful when placing items in the containers. The containers will be emptied as long as the contamination is not too severe.
- (D) The purpose of the inspection process is to help educate citizens and to decrease the contamination rate.
